Evolupak has over 40 years of expertise in customized thermoforming, using the latest state-of-the-art technologies. From prototype creation to final production, Evolupak offers a complete solution for innovative food, commercial and medical packaging.

All products manufactured by Evolupak contain essentially renewable materials to reduce the ecological footprint and meet the standards set by the CFIA and the FDA, in addition to being GMP Gold certified. Evolupak adapts to your needs and highest requirements. The design of their products offers flexibility in terms of size, shape, color, manageability and much more.
